ORGANIC* SNAIL & SLUG KILLER

OCP eco-shield[®] organic* snail & slug killer contains an iron powder formula to effectively kill snails, slugs and slaters. When eco-shield is eaten, snails and slugs start to lose their appetite and crawl back to their shelter to die. As a result, dead or paralysed snails and slugs will rarely be seen in the open.

OCP eco-shield[®] organic* snail & slug killer can be used around seedlings, potted plants, vegetables and clumps of perennials.

*Approved for use in organic gardens.

HOW TO USE: Scatter pellets evenly at a rate of 70 pellets per square metre around plants to be protected. 1 teaspoon equals approximately 70 pellets. Apply after rain or watering. Reapply as the pellets are consumed or at least every 2 weeks while slugs and/or snails continue to be a problem, or following heavy watering or periods of heavy rain. DO NOT place pellets in heaps.

DO NOT USE FOR ANY OTHER PURPOSE OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED.

CAUTION: Store in original container. Lock in a safe place preventing access of children, animals, poultry or ducks. Keep away from domestic pets. Keep away from dogs. Dogs find this bait attractive and it may kill them. If pets are poisoned, contact a veterinary surgeon. To protect birds, remove spillages. DO NOT allow packaging or pellets to get into drains, sewers, streams or ponds.

STORAGE AND DISPOSAL: Keep out of reach of children and pets. Store in the closed original packaging in a dry, cool place out of direct sunlight. Dispose of empty packaging by wrapping in paper and putting in the garbage.

SAFETY DIRECTIONS: May irritate the eyes. Avoid contact with eyes. Wash hands after use.

FIRST AID: If poisoning occurs, contact a doctor or the Poisons Information Centre:
Phone Australia 13 11 26, New Zealand 0800 764 766.

FOR EMERGENCIES ONLY CALL: 1800 220 770 (24 HOURS).
