

# Foam Extinguisher

## Safety Data Sheet

### 1. PRODUCT AND COMPANY

**Product name:** Foam Extinguisher (LF60)  
**Manufacturer:** Zhejiang Ruihua Machinery Co., Ltd.  
Yuyao, Zhejiang P. R. China  
**Tel:** +86-574-6200 3798

### 2. COMPOSITION / CLASSIFICATION

| Chemical name | CAS no  | Quota %   | Classification |
|---------------|---------|-----------|----------------|
| Urea          | 57-13-6 | >5%, <15% | Xi; R36/37/38  |

### 3. HAZARD IDENTIFICATION

**Ingestion:** Burning sensation. Cough. Cramps. May cause burns or irritation of the linings of the mouth, throat, and gastrointestinal tract. Swallowing a small quantity of this material will result in serious health hazard. Must not come into contact with food or be consumed.

### 4. FIRST AID MEASURES

#### Inhalation

Assure fresh air breathing. If you feel unwell, seek medical advice

#### Skin contact

Flush with plenty of water

#### Eye contact

Immediately rinse with clean water for 10-15 minutes

#### Ingestion

Rinse mouth. Give water to drink. Seek medical advice

### 5. FIRE FIGHTING MEASURES

The product is a fire-extinguisher. After use remove residual fire extinguishing agent from corrosion sensitive materials.

### 6. ACCIDENTAL RELEASES MEASURES

**General precautions:** Wear safety clothes, gloves and goggles.

#### Personal precautions:

Hand protection: Impermeable gloves (PVC) if continual handling

Eye protection: Goggles

Body protection: Working clothes, safety shoes

**Environmental precautions:** Prevent entry to sewers and public waters.

Notify authorities if product enters sewers or public waters.

**Clean up methods:** Collect spills and put it into appropriated container.

### 7. HANDLING AND STORAGE

Storage temperature: +1°C - 65°C, dry and free from vibrations. Keep away from natriumhypochlorite (bleach).

### 8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

Wear chemical glove and blinker to use it, wash hand after use.

### 9. PHYSICAL AND CHEMICAL PROPERTIES

|                        |          |
|------------------------|----------|
| PH value               | 7.2      |
| Physical state at 20°C | liquid   |
| Flash point            | 95       |
| Density                | 1.22     |
| Solubility in water    | complete |

### 10. STABILITY AND REACTIVITY

Stable under normal conditions

### 11. TOXICOLOGICAL PROPERTIES

Eye contact: The foam can cause serious eye damage.

### 12. ECOTOXICOLOGICAL INFORMATION

Not expected to be toxic

### 13. DISPOSAL CONSIDERATION

**Dispose in a safe manner in accordance with local/national regulations.**

**General: Hazardous waste.**

Dispose in a safe manner in accordance with local/national regulations.

### 14. TRANSPORT INFORMATION

| ADR RID                                                   | IMDG                                                                        | DGR (flyg) |
