## FEATURES AND BENEFITS

With an SLC80 rating of 32db, the HRE661 provides excellent hearing protection in noisy environments.

### Compact and Convenient

The HRE661's foldable design allows for easy storage and transport, making it highly portable.

### Increased Comfort

Features super low headband tension, reducing pressure on the head for extended wear comfort.

### Better Fit and Adjustability

Two-point suspension allows for simple height adjustment, ensuring a secure and comfortable fit.

### European Design

Made in Finland, combining quality craftsmanship with modern design.

### Retail Ready

Packaged with a window for easy viewing, perfect for retail displays.

### Certified for Safety

Certified to AS/NZS:1270:2002 guarantees rigorous testing and compliance with Australian safety standards.

When selected, used and maintained as specified in AS/NZS:1269 this protector may be used in noise up to 110dB(A) assuming an 85dB (A) criterion. A lower criterion may require a high protection class.

### Important Note:

The SLC80 rating could be different in your ears, as each canal is different, making it hard to get accurate readings.

### Importance of Australian Safety Standards

Fully tested and certified to AS/NZS 1270:2002, the improved HRE661 Headband Earmuff meets stringent Australian safety standards, providing reliable hearing protection in noisy environments. These standards are vital for ensuring effective safety and comfort, especially in high-risk workplaces. Properly using and maintaining these earmuffs is essential for optimal protection and performance.

**The HRE661 Headband Earmuff is designed for maximum safety and user comfort, making it ideal for demanding conditions. Stay safe, stay comfortable and work with confidence.**
