Fertiliser for Life

ECO-WET®

Soil wetter for rapid long lasting response

KEY BENEFITS:

- Suitable for a range of soil types
- Spreads and retains moisture in the top-soil
- Contains proprietary non-ionic surfactants and natural water-holding polymers

Eco-Wet® is unique soil wetter designed for fast water penetration with longevity; that holds water in even the sandiest soil. Most soil wetters have one or two of these properties, rarely all three. Eco-Wet® demonstrates its ability to hold moisture by spreading water through the soil profile like ink on blotting paper. These characteristics make Eco-Wet® ideal for irrigation, boom, in furrow and tanker application.

Eco-Wet® has a fast acting formulation that enhances soil structure and encourages beneficial microbial activity in order to maintain long lasting wet-ability in waxy sands, heavy clays and normally water repellent soils. Eco-Wet® differs from normal wetters, containing natural polymers, which physically improves the soil structure without damaging it. The added natural polymer acts like a sponge, creating a long term wetting effect often lasting for an extended time.

CROP/PLANT TYPE	RATE	MINIMUM DILUTION	TIMING
Standard lawns	300mL/100m ²	1:100	Apply at cool time of the day and water in well. If applying lower than recommended water rate, irrigate in well.
Greens Premium turf	500mL/100m ²	1:100	Apply every 3-4 months if required. Water in well after application.
Fairways	5-15L/ha	1:25	Water in with irrigation immediately after application.
Broad acre boom (Based on 9-12" spacing)	5-10L/ha	1:15 Bare soil 1:25 Plant & soil	Apply to surface of soil, do not incorporate until minimum 15mm rainfall event has occurred.
Broad acre in-furrow	1-3L/ha	1:25	Apply though strong jet, as close to ground as possible. Avoid burying under soil as this will prevent product from working.
Irrigation injection	1-2L/ha	1-2L / Ha	Apply as required through growing season.
Tanker verge treatment	-	1:1000	Apply to soil at base of shrub or tree. Avoid excess contact with leaves.
Home garden - Lawns and Pots	30ml /10m ²	1:300	Apply every 8-12 weeks or as required

AVAILABLE FROM 5L THROUGH TO 1000L IBC OR BULK | FOR ALTERNATIVE USES OR APPLICATIONS PLEASE CONTACT YOUR ECO GROWTH® NUTRITIONAL EXPERT.
