

Tree Coach® is a world-first, sustainable all-in-one tree planting, staking, watering and protection solution for your natural assets.

nggp
NATURAL GROWTH PARTNERS™

Tree Coach® is the sustainable choice for open space projects.

Manufactured in Australia, from recycled kerbside waste.

Enhance your open space projects and grow stronger trees with Tree Coach®.

Trees require nurturing and care in their early years to enable them to thrive.

The greening of our suburbs and streets has become more important than ever for our health, community and environment.

Young trees need to be able to move and flex with the wind, causing them to establish an improved root plate and stronger trunk.

Tree Coach® enables smaller, nurtured tree plantings helping you reduce planting costs, increasing speed to canopy, and ensuring the success of your urban development projects.

Tree Coach®

BIO Solution

- + **Biodegradable lower ring**
leaves ZERO residual plastic in the ground after the frame has been removed at the end of the maintenance period
- + **Improved caliper development**
and tree trunk taper through flexible stakes with GrowFlex Technology®
- + **Up to 25% water savings**
compared to traditional staking
- + **Upper ring captures water**
and delivers it to the root zone
- + **Stakes are re-usable!**
Re-use in your next planting season so your budget and effectiveness extends
- + **Planting depth guides**
ensure the correct installation occurs, improving planting outcomes and tree longevity

Tree Coach® is the first Australian-made staking solution manufactured from Australian kerbside waste that:

- Is lightweight and safer to install.
- Assists tree caliper and root plate development, reducing tree failures.
- Is aesthetically consistent and appealing, enhancing urban development projects.

Orders will be delivered FIS when the order total exceeds \$2,500 ex GST. Prices correct as at May 2022, and subject to change (with notice) in future.

Estimation of tree failure costs

The average tree failure rate across all Australian councils, in the first five years of establishment, excluding vandalism, is greater than 20%.

Failure Rate (FR) and Replacement Cost of \$500 per tree (AUD)

Tree Coach trials and installations have proven to have failure rates lower than 2%.

Annual Tree Planting	500	1,000	2,000	5,000	10,000	20,000
2% FR	5,000	10,000	20,000	50,000	10,000	200,000
5% FR	12,500	25,000	50,000	125,000	250,000	500,000
10% FR	25,000	50,000	100,000	250,000	500,000	1,000,000
15% FR	37,500	75,000	150,000	375,000	750,000	1,500,000
20% FR	50,000	100,000	200,000	500,000	1,000,000	2,000,000
