

FOLIAR PLUS
FOLIAR NUTRIENT COMPOUND

ANALYSIS	%w/v
Total nitrogen(N) as urea	10.00
Available phosphorus (P) as phosphoric acid	9.00
Soluble potassium(K) as potassium chloride	3.00
Magnesium(Mg)	1.00
Sulphur(S)	0.40
Boron(B)	0.20
Cobalt(Co)	0.07
Copper(Cu)	0.15
Iron(Fe)	0.10
Manganese(Mn)	0.40
Molybdenum(Mo)	0.01
Zinc(Zn)	1.50

PRODUCT CONTAINS 52% w/w WATER
TOTAL SOLIDS 48% w/w

GENERAL INFORMATION

FOLIAR PLUS is formulated as a soluble concentrate that is typically diluted to 1% (1litre in 100 litres) with water. It is a fluid nutrient compound designed to prevent nutrient deficiencies in plants. It is a valuable supplement to soil applied nutrients and is particularly beneficial under conditions where soil nutrients are not readily available. FOLIAR PLUS will assure adequate nutrients at periods of fruit or flower development.

It has a low pH. The use of buffering agents is not recommended. It will disperse in water with little agitation. Many pesticides can be added and applied while spraying FOLIAR PLUS.

FOLIAR PLUS:

- Will aid root growth, crop yield and quality
- Is non-toxic when used according to directions
- May be applied by air or ground
- Is compatible with most pesticides and spray additives (not compatible with MCPA Amine)
- May be used up to final harvest

CAUTION: Always Conduct a "Jar Test" using all products in proper proportion in order to establish physical compatibility.

SHAKE WELL BEFORE MIXING

CAUTION

This product contains boron and the use of this product on any crop other than those recommended by this label may result in serious injury to the crop. This product may only be used on soils which respond to molybdenum. Crops high in molybdenum can be toxic to grazing animals. Avoid use with copper fungicides. Harmful if swallowed. Avoid contact with skin, eyes and clothing. Wash thoroughly with soap and water after handling. Avoid breathing spray mist.

DIRECTIONS FOR USE

Apply as a foliar spray in a volume of water sufficient for thorough coverage. Avoid application in high temperatures or conditions of extreme sunlight.

Crop	Rate	Comments
Vegetables	3-6 litres per hectare	To supplement soil applied fertilisers, foliar spray at weekly intervals. Start when crops are a few inches high. Continue up to 2 weeks before final harvest.
Trees, Fruits and Nuts	3-6 litres per hectare	Apply 5-6 times annually beginning with vines & nuts delayed dormant spray.
Citrus	3-7 litres per hectare	Apply 4 times annually with first application at pre-bloom
Grapevines	3-6 litres per hectare	Can be applied early season (small canopy) through to veraison if needed.
Field Crops	4-7 litres per hectare	Apply when crops reach 4-leaf stage. Repeat every 14 days until crop matures.
Green House	500 mls/200 litres	Spray plants for thorough coverage. Repeat every 14 days until crop matures.
Pasture	5-7 litres per hectare	Maintenance applications in Autumn and Spring. A minimum dilution rate of 1 part Foliar Plus to 20 parts carrier is recommended for aerial spreading.
Turf Grasses	Use 2 litres in 350 litres of water for every 4000 square metres.	Commence applications in Spring. Repeat every 3-4 weeks until grass goes into dormancy.
Soil Treatment	5-30 litres per hectare	Foliar Plus can be used as a soil treatment through microirrigation (drip).

CONDITIONS OF SALE

1. Seller warrants that this product consists of the ingredients specified and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. No one, other than an officer of Seller, is authorised to make any warranty, guarantee or direction concerning this product. 2. Because the time, place, rate of application and other conditions of use are beyond Seller's control, Seller's liability from handling, storage and use of this product is limited to replacement of product or refund of purchase price.
