

NUTRI-pHLOW

ANALYSIS	W/W
TOTAL NITROGEN (N) as urea	3.00%
AVAILABLE PHOSPHORUS (P) as phosphoric acid	15.00%
SOLUBLE POTASSIUM (K) as potassium chloride	2.50%
MAGNESIUM (Mg)	0.50%
BORON (B)	0.10%
COBALT (Co)	0.002%
COPPER (Cu)	0.10%
IRON (Fe)	0.30%
MANGANESE (Mn)	0.25%
MOLYBDENUM (Mo)	0.002%
ZINC (Zn)	0.50%

PRODUCT CONTAINS 57% w/w WATER
TOTAL SOLIDS 43% w/w

GENERAL INFORMATION

- NUTRI-pHLOW is a multnutrient product designed for use in soil application. It contains N, P and K as well as a range of micronutrients.
- NUTRI-pHLOW is an excellent liquid phosphorus source for a range of crops.
- NUTRI-pHLOW will clean drip lines with continued use. Individual nutrients can be added if specific deficiencies are present.
- The Nitrogen level is set deliberately lower to allow supplemental feed from an alternative Nitrogen source such as N-Hib 23.

NUTRI-pHLOW:

- Will aid root growth
- Will aid crop yield and quality
- Is non-toxic when used according to directions
- May be used up to final harvest

CAUTION: Always conduct a "jar test" using all products in proper proportion in order to establish physical compatibility.

CAUTION:

This product contains boron and the use of this product on any crop other than those recommended by this label may result in serious injury to the crop. This product may only be used on soils which respond to molybdenum. Crops high in molybdenum can be toxic to grazing animals. Avoid use with copper fungicides. Harmful if swallowed. Always wear protective clothing and goggles. Wash thoroughly with soap and water after handling. EYES: Hold eyes open and wash with water continuously for at least 15 minutes. Seek medical attention. SKIN: Remove all contaminated clothing and wash affected area with plenty of soap and water. IF SWALLOWED DO NOT INDUCE VOMITING. Give plenty of water and seek immediate medical attention.

DIRECTIONS FOR USE

Irrigation Treatments

NUTRI-pHLOW is applied through the irrigation/micro irrigation system or banded on the soil and watered in.

Calculating phosphorus inputs:
 NUTRI-pHLOW contains 15% phosphorus. (100 litres of NUTRI-pHLOW contains 15kg of actual P).

Rate should be calculated to meet desired phosphorus inputs for the crop

CROP	RATE	COMMENTS
Vegetables	15-25 litres per hectare	Multiple applications commencing immediately after planting.
Vines	20-50 litres per hectare	2-3 applications commencing with first irrigation (around budburst)
All other crops	15-25 litres	Multiple applications commencing immediately after planting, budburst or flowering.

Always flush the system with fresh water immediately following use

CONDITIONS OF SALE

1. Seller warrants that this product consists of the ingredients specified and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. No one, other than an officer of Seller, is authorised to make any warranty, guarantee or direction concerning this product. 2. Because the time, place, rate of application and other conditions of use are beyond Seller's control, Seller's liability from handling, storage and use of this product is limited to replacement of product or refund of purchase price.
