www.stratagreen.com.au

Introducing MiniMate™, the new picket cap alternative

MiniMate® is a better way to install mesh barriers.

Our patented plastic cap fits on top of 900mm star pickets and locks the mesh into place with our new button lock system. A unique locking design on the top of the MiniMate® allows for flag rope to be attached securely.

- Fast setup
- Cleaner and safer sites
- Zero waste and mess
- Easy to store and transport
- Aussie made and assembled
